# PREFACE

THIS volume provides a comprehensive series of indexes for the first 36 volumes of the *British Year Book of International Law*. It contains short indexes of articles and of notes, a comprehensive subject index, and a table of cases. The 1929 volume of the *Year Book* contained a Consolidated Index for volumes I–X and the 1939 volume a Consolidated Index for volumes XI-XX. The Royal Institute, however, believes that it will be of great value to students of International Law to have a single and more complete consolidated index for the whole of the existing volumes of the *Year Book*, particularly as, owing to the expanding interest in the subject outside Britain, it has proved necessary to reprint the first 33 volumes.

The work has been prepared by J. G. Collier of Emmanuel College, Cambridge, under the guidance of Dr. Clive Parry of Downing College, Cambridge. The Council of the Institute and the Editorial Committee of the *Year Book* wish to express their thanks to Mr. Collier and Dr. Parry for undertaking this task.
